

## Get a Better Deal in Waste Disposal

Crammed helps you get better deals on skips, wheelie bins and specialist waste disposal. When you have a waste disposal job, we publish it to our network of over 1,000 trusted waste operators and invite them to bid for the business.

### Save Up to 40% on Your Costs

Waste operators bid online for your business, speeding up the process and helping you save up to 40% on the total price.

### Save Time Sourcing

Instead of requesting quotes by phone & email, Crammed saves you time by publishing your requirements and letting the operators submit standardised bids electronically.

### Manage Your Jobs

From order to delivery and billing, Crammed gives you traceability on your waste disposal costs. Our reporting suite offers ready to use analytics and our mobile app gives you access on the move.

### Work with Trusted Operators

We only allow our network of over 1,000 verified operators to bid for your business. Before joining Crammed, each operator is interviewed and their relevant licences are checked.

### Who Uses Crammed?

Procurement, Operations and Site professionals use Crammed across multiple industries including Construction & Trades, Retail and Manufacturing.

### How Does it Work?

1. List your waste disposal job and we will alert qualified waste operators in your area
2. Waste operators complete your questionnaire and submit their bids for your business
3. Check the operators profile and price and then select the winning bidder
4. Track the progress on your job with our online dashboard or mobile app
5. Securely pay the operator and rate their service
